

# WILL DOUBLE EXTENSION MILL

## FIVE FEET IN THE NEW SHAFT WILL AVERAGE \$49

### HALIFAX FROM THOUSAND FOOT LEVEL WILL BEGIN SHIPPING TO THE MILL

Recent returns from the Halifax Tonopah on the tenth level shows the existence of at least five feet of ore that will run from \$45 to \$60 in sulphides. This confirms the statement made when Thomas Kearns was here three weeks ago that the Halifax would come into the shipping class inside of a month. Manager Brady has arranged with the Belmont Development company to treat one hundred tons weekly as the West End mill is overtaxed by the ore from that property and cannot take care of more than its own production. Last week when the vein was opened on the Halifax the rock was heavily oxidized but since then the vein has developed into a true sulphide formation. Over 500 tons of good pay ore has been hoisted and a portion of which was treated last week at the West End mill.

### MEMORIAL SERVICES OF THE EAGLES CONDUCTED AT THE NEVADA THEATER SUNDAY BEFORE A LARGE AUDIENCE

The annual memorial services of the Fraternal Order of Eagles held last night at the Nevada theater was attended by a full house which took a deep interest in the proceedings under the auspices of the Tonopah aerie. The local Eagles and several visiting brothers attended in a body headed by the drill corps in full uniform. The stage was prettily decorated. The exercises opened with a selection by the Catholic choir and an overture by the Eagles orchestra followed by the ritual, rendered by the officers of the order at their respective stations as follows: Worthy president, J. P. Murphy; vice president, Henry Kelly; chaplain, N. M. McCormick; secretary, C. L. Richards; treasurer, W. G. Walker; conductor, R. A. Brooks; inside guard, Robt. Temple; Outside guard, F. C. Malley; trustees, Albert Kelly, R. Petroni, W. G. Walker; physician, J. R. Masterson. The memorial committee in charge of the program consisted of Henry Kelly, Shelton McLain and Thos. Griffin. The orator of the evening, Leonard B. Fowler, former assistant attorney general of Reno, drew an inspiring picture on the life immortal and commented on the admirable qualities of fraternal work, and the lives of the deceased brothers. He was listened to attentively to the finish and the program was brought to a close by the audience rising and singing "Nearer My God to Thee." Those who shared in the exercises were Prof. Barrett, Brother Dixon, Brother Frazell, Brother R. Parker, Brother P. B. Stevens, Miss Degan, Mrs. William Grimes and the Eagles orchestra.

### RAILWAY STRIKE IS RATIFIED

TIME FOR CALLING LEFT TO DISCRETION OF TWO LABOR LEADERS.

(By Associated Press.) NEW YORK, July 13.—A conference committee of railroad managers received today formal notification from the unions that the strike vote was ratified yesterday. Presidents Lee and Garretson are in Washington today to attend a conference between the president, representatives of railroads and congressional leaders. The railroads involved in the strike announced through the conference committee that the managers are willing to arbitrate under the provisions of the Newlands bill now before congress, but unwilling under the Erdman act. WASHINGTON, July 13.—The Independent, democratic and republican congressional leaders, representatives of eastern railroads, and union leaders began a conference this afternoon in an effort to prevent a strike secretly decided by a vote of the employees of 42 roads.

### PORTLAND PAIR, CAUGHT IN STORM, MISSING A WEEK

(By Associated Press.) PORTLAND, Ore., July 13.—Clinton S. Smith and wife of Portland have been lost on the side of Mount St. Helens for a week. Accompanied by Randall S. Carroll and Miss Bertie Moore of Portland, they started to climb the mountain last Thursday. A blizzard of snow and sleet, with heavy wind, caught them on the mountain side.

### BUSINESS DISTRICT BURNED

PROMINENT BUILDINGS WIPED OUT BY FIRE THAT SWEEPED TOWN.

(By Associated Press.) PLACERVILLE, Cal., July 13.—Fire started in the Western hotel early today and destroyed several buildings causing \$50,000 loss. The guests fled in their night clothes. The city hall and Odd Fellows buildings were among those destroyed.

### FORMER PARADISE VALLEY GIRL DIES IN SEATTLE

In a letter to the Silver State, written at Seattle, Mrs. H. M. Burge says that Mrs. Hattie Sperry, wife of Fred Sperry, died at her home, in Seattle, July 5, of heart disease. Mrs. Sperry was the daughter of the late Charles Nichols and spent her girlhood days in Paradise Valley. Mrs. Sperry leaves to grieve for the loss of a devoted wife and mother a husband and six children: Leslie N., Hazel M., Mrs. Jack Callahan, Mrs. May Linn, Charles and Marion Sperry.

### LITTLE DAUGHTER OF JUDGE TABER DISLOCATES ELBOW

The little daughter, two years old, of Judge Taber, fell and dislocated her elbow. The little one was jumping on and off a small box on the lawn and fell lighting on her arm. The baby shows no ill effects from the accident. It was her birthday and she was celebrating the event. —Elko Free Press.

Proof of labor blanks for sale at the Bonanza.

### Permanency of New Ore Body Is Established Beyond Doubt and Big Tonnage Is Assured

A. D. Parker, vice president of the Colorado and Southern railroad, sells his interest in Tonopah Extension to the Kirchen-Schwab people. Tonopah Extension in the new shaft has over five feet of ore that will run between \$45 and \$60 a ton. In the old workings another strike is reported but an extension of the mill to double its present capacity is assured. Halifax Tonopah Mining company contracts for the treatment of 100 tons a week at the old mill of the Tonopah Belmont at Millers. Merger comes through the fault in the west drift and reports six feet of ore that will average \$150 a ton. Stock shows effects Sunday night when bids of 70 were freely made.

Four of the greatest events credited to any mining district culminated in Tonopah yesterday and this morning. That they are pregnant with importance to every man having a dollar invested in the camp is beyond contradiction. The foregoing epitomizes in a nutshell the doings of a day. Other important developments will follow.

#### Retirement of Parker.

According to well authenticated report the retirement of A. D. Parker, one of the original stockholders of the Tonopah Extension, has been determined by that gentleman disposing of his interests to John W. Kirchen and Charles M. Schwab, Mr. Parker held 50,000 shares in the company and the price at which the transfer was made has not been divulged. Mr. Parker grabbed Thomas W. Lockhart, who afterwards became interested in the Florence Goldfield, and through that deal was entitled to one-half of Lockhart's interest. Two years ago Lockhart decided to retire from the mining game and enjoy himself in the simple life of a southern California rancher and sold his stock in the Tonopah Extension. The retirement of Parker leaves the company in the hands of the Kirchen-Schwab people whose names will not impair confidence in the future of the property.

### FAIL TO SHOW UP FOR THE TRIALS AT GOLDFIELD TARGETS

TONOPAH MARKSMEN ARE DISAPPOINTED BUT AGREE TO FRIENDLY TEST OF SKILL.

A match shoot was arranged yesterday between Tonopah and Goldfield and eleven representative gun men from this camp autoed over in machines furnished by local enthusiasts. On arriving at Goldfield it was discovered that several of the best shots of that camp had been summoned away on business trips so the competition was called off and the boys divided forces to finish the day at the targets. Teams consisting of men from both camps were drawn and a good time was enjoyed. After the shoot everybody adjourned to the Goldfield hotel where the guests were entertained until a late hour.

The members of the Tonopah team who made the trip were: Scott Mullins, Bob Prouty, Martin Johnson, Vail Pittman, Ed Regan, A. H. Jones, E. K. Smith, Charlie Coble, Thomas J. Dwyer, Ed Addison and Dr. Cowden.

### LIVELY SCRAPS PUT ON AT THE GYMNASIUM

ONE DECISION AND A DRAW FOLLOWS AN EXHIBITION AT THE GYMNASIUM.

Two lively bouts occurred at the gymnasium Saturday night when Mills and Reese fought ten rounds to a draw. The boys never let up during the battle and appeared evenly matched. Jimmy O'Connell got the decision in six rounds over J. Ryan. Jimmy Welch was referee. It is proposed to have these exhibitions every two weeks.

### TEMPERATURE REPORT.

Highest temperature yesterday, 89; a year ago, 89. Lowest temperature last night, 60; a year ago, 60.

general sample which I had taken this morning. Reports are likely to be misunderstood, but when I find the returns from this morning's sample I can speak definitely of the value of the find.

While this is a modest statement of the discovery that sent Merger stock ballooning this morning, it is well to state that on the street the story is told that the ore will run close to \$120 a ton as an average of the vein. One piece of gouge from the wall went \$1500, but of course, that cannot be taken as a criterion of values. But a little of that sort of stuff would sweeten a lot of low grade and furnish dividends.

#### New Crushing Plant.

The consummation of this deal at a time when the physical condition of the mine never was better also brings a movement to increase the capacity of both mine and mill. The mill will be raised from 150 tons daily to 200 tons by doubling the number of stamps and making other additions to the accessory machinery. The first step will be to install a crusher at the new shaft down on the flat and then raise the ore by conveyor belt to the mill, a distance of about 1000 feet.

#### Big Body of Ore.

One of the largest ore bodies known to the Tonopah district has been opened on the Extension on the 750 foot level of the new shaft 325 feet north of the shaft where the company is drifting both east and west. This vein is 12 to 14 feet wide of a good grade of milling ore that courses east and west, running apparently through the center of the property down the flat. Manager Kirchen says he has started work on the 850 level of the new shaft to pick up the ledge and expects to strike it in nine or ten weeks. The work on both the 750 and 850 levels will be prosecuted with two shifts each.

#### Strike on the Merger.

"The strike on the Merger is a nice body of ore," replied Mr. Kirchen when asked for an official statement concerning this development which is regarded as one of the most remarkable in the southern country. "On the 1170 foot level 150 feet west of the shaft we have eight feet of ore that runs very high grade I do not care to say anything further about it until I hear from a good

### YOU CAN DEPEND ON YOUR NEIGHBORS.

To whom do you appeal for help in time of trouble or sickness? On whom would you depend if dread misfortune laid its heavy hand on you? Your neighbors? Exactly.

You know your neighbors are reliable, that they can be depended on, that they would come to your aid with sympathy or material help should the occasion arise. Then why not show that you appreciate their good qualities by doing business with them regularly and as a matter of habit? They know you and are interested in you. The mail order man is merely interested in getting your money, and that in advance. SPEND YOUR MONEY WHERE YOU MAKE IT.

### ASSASSINS SEEK LIFE OF WITNESS IN HAWAIIAN GRAFT

DYNAMITE HOME OF DEPUTY SHERIFF WHO ESCAPES WITHOUT INJURY.

(By Associated Press.) HILO, H. T., July 13.—As a result of an attempt last night to kill Deputy Sheriff Edward Simmons, an important witness in the graft investigation of affairs in Hawaii county armed guards are protecting all concerned in the prosecutions. Simmons' house was dynamited. He and his wife were asleep but were not injured.

### LITTLE BOYS BEAR UP WELL UNDER OPERATION

TREATED THIS MORNING AND AFTERNOON AT THE MINERS UNION HOSPITAL.

Lawrence Metts, a nephew of Mrs. F. J. Metts, was operated on this morning by Dr. Masterson at the Miners Union hospital for hernia and this afternoon Alton L. Parrott, from Millers, was treated by Dr. McLeod for appendicitis. Both lads are only ten years of age and bore their experience bravely.

Mrs. Gus Peterson who was brought to the hospital three weeks ago threatened with appendicitis was removed this morning to Pasadena for the benefit of a lower altitude. This is one of the most pathetic cases that has claimed attention recently. Mrs. Peterson was stricken after her husband had left for his old home in Sweden and she had to be removed to the hospital without further delay. Attempts were made to reach Peterson at the steamship office but his vessel had started on the long voyage and nothing could be done until arrival in the old country when he was advised of the critical condition of his wife, whom he left in apparently good health.

### MERGER OPENS UP HIGH GRADE ORE SAID TO BE OVER EIGHT FEET IN WIDTH

Samples of ore from the Tonopah Merger were exhibited last evening at various places around town and the stock took the bit in its teeth and promised to give an exhibition of the pyrotechnics of last year when the camp was convulsed by the discovery of high grade in the shaft. The west drift has passed through the fault which cut the ore body several weeks ago and there is now showing something over eight feet that will run close to the \$200 mark. This ledge is widening and is believed to be a downward extension of the first ore shoot struck in the 950. The only difference observed is that the values are higher and the ore body larger and it is expected that the vein will be cut by the crosscut in the 1070 foot level within a few days.

### FOURTEEN KILLED AND 150 INJURED IN A CRASH OF ELECTRIC TRAINS IN THE SUBURBS OF LOS ANGELES

(By Associated Press.) LOS ANGELES, July 13.—A corrected list shows 14 dead. The injured include twenty seriously, two probably fatally, and 150 others. The victims are due to a wreck last night on the Pacific Electric line at Vineyard, when a train at 40 miles an hour hit a standing train on the same line. The dead: Miss Edna Alter, secretary Associated Charities, Pasadena. Ollie W. Axley, Bakersfield. Miss Veronika Miller, telephone operator, Los Angeles. William Taylor, Pasadena. Jacob Barman, Los Angeles. Edward Murray, Toronto, Canada. Merle Evans, Los Angeles. Mrs. C. G. Norman, Los Angeles. Irwin Platz, Los Angeles. J. Carl Murray, Los Angeles. Sidney Johnson, Youngstown, O. (Unidentified woman. Two unidentified Japanese. Emil Bartholmal, conductor of the stalled train, said Motorman P. R. Forester of the moving train is responsible, that he was talking to a passenger, and failed to see Bartholmal's signal to stop although he waved at 800 feet from the stalled train. The company officials say the responsibility lies between the two. Forester at first was believed to have been killed, but was found in his room today. He refused to make a statement.

### HALIFAX HAS KEY TO THE TONOPAH TREASURE BOX

THOMAS KEARNS ENTHUSIASTIC OVER THE OUTLOOK ON EAST EDGE OF BELT.

That the management of the Halifax Tonopah company has struck the combination to the treasure vaults of the property seems evident from the news that Director Thomas Kearns received from Tonopah on Friday. A message brought the welcome information that on the 1000 foot level a full face of sulphide ore was encountered, the value of which was not less than \$60 per ton.

A successful consummation of the energetic campaign of development work on the Halifax has been deemed certain owing to the results on neighboring mines, especially the Belmont, which adjoins the Halifax, and it has been a question of work to bring the Halifax into the coveted division. There has been no better work done or better equipment added in Tonopah than the directors of the Halifax have seen fit to do, and the results now being achieved are certainly due those whose faith has been pinned unalterably upon the merits of the proposition.—Salt Lake Tribune.

### SCORCHING WINDS DESTROY FRUITS AND ORCHARDS

(By Associated Press.) REDDING, Cal., July 13.—Scorching winds during the past few days heavily damaged peaches, pears and grapes. The latter were burned, and others blown off the trees.

### COAL DEALERS GATHER.

DULUTH, Minn., July 13.—A better feeling between wholesale and retail coal dealers, elimination of the practice of short weighing in coal transactions and honest advertising are some of the reforms brought about by the northwestern Retail Coal Dealers' association at the thirteenth annual convention now in session.

Location notices for sale at the Bonanza office.

### HORRIBLE OUTRAGES ENDURED

MEN AND WOMEN CRUCIFIED, HACKED AND BURNED BY BULGARIANS.

(By Associated Press.) SALONIKA, July 13.—The sacking and burning of Seres by Bulgarians before they fled was fully confirmed today. Women of all ages suffered incredible outrages, many dying from the effects. Men and women were crucified, hacked and burned. The retreating Bulgarians shelled the town with field guns and drenched the buildings with petroleum which they fired.

The Austro-Hungarian and Italian consulates were sacked and burned and the American Tobacco company's loss is a million dollars. Rich and poor are dying of hunger.

LONDON, July 13.—King Ferdinand of Bulgaria in a long message today from Sofia informs the evening news that reports that Greeks and Servians have been circulating in Europe that outrages alleged to be committed by Bulgarian troops are absolutely unfounded, and published with the object of creating a bad impression. He says Bulgarians have been subjected to indignities from Greeks and Servians and he courts an international inquiry.

### WEDDING CELEBRATED BY JUDGE DUNSEATH SATURDAY

Justice Dunseath had a full house Saturday night when he celebrated the marriage of Cliff Worth, of the Tonopah Extension and Miss Carrie Painter. The witnesses were Mr. and Mrs. Martin and the court room was filled with friends who joined in congratulations. The couple are keeping house at 430 Florence avenue. Last night a charivari was conducted by the younger friends of the couple and the bridegroom responded gallantly to the demands of the crowd.
